# **Zionism Threatens USA Security**

## **USA "Surrender" to USSR Is Inevitable**

**Zionists pressured USA into recognizing as a "sovereign state" the 1948 armed uprising by aliens transplanted into Palestine**

By Benjamin H. Freedman

Founder 1950 Christian Anti-Defamation League

USA Zionist "Jews" cannot escape their responsibility for the international crisis in the Middle East. That crisis today confronts this country with the greatest threat to its existence in all its history, — defeat by the USSR in a thermonuclear war. This country's security and survival can be equated with an individual having "one foot in the grave and the other foot on a banana peel." In that predicament, one more step in the wrong direction must prove fatal, and will unquestionably "bury" that person, or any nation. Indifference to that danger, by those aware of its existence, and ignorance of that danger, by those with little reason to suspect its existence, spell disaster for this country.

The responsibility of USA Zionist "Jews" for this crisis will be found in that May 15, 1948 "proclamation" by the armed uprising in Palestine by a minority of Palestine's population, consisting of eastern European Zionist "Jews" of Khazar ancestry transplanted into Palestine between 1920 and 1947. On May 15, 1948 they "proclaimed" their armed uprising a "sovereign state" contrary to all internationally recognized norms of statehood from time immemorial.

President Harry S. Truman "recognized" that counterfeit "sovereign state" on behalf of the USA exactly seven minutes after that "proclamation" was made 7,000 miles away by an armed uprising of aliens transplanted into Palestine for that purpose. President Truman was able to extend his instant "recognition" to that armed uprising with the assistance of his Secretary of State, General George C. Marshall, and our present Secretary of Defense, Mr. Clark Clifford. That instant "recognition" by President Truman was the price he paid to USA Zionist "Jews" for their effective support for him in the 1948 election in which President Truman was a candidate to succeed himself.

USA Zionist dictation of USA Middle East foreign policy began in President Woodrow Wilson's first administration. President Wilson was elected in 1912 as the successor of President Taft. President Taft in 1907 refused to comply with Mr. Jacob H. Schiff's ultimatum that the USA break diplomatic relations with Russia and terminate our most-favored-nation treaty with them both at that time demanded by USA Zionist "Jews." At their meeting in the White House, Mr. Schiff threatened President Taft with reprisals if President Taft refused to comply with Mr. Schiff's demand. President Taft's secretary, Col. Archibald Butt, was present

during that entire conversation and recorded a verbatim available report of the interview. President Taft rejected Mr. Schiff's ultimatum and was defeated in the 1912 election as the candidate of the Republican Party by President Woodrow Wilson, the candidate of the Democratic Party.

Mr. Bernard Baruch must be given credit for the defeat of President Taft and for the election of President Woodrow Wilson. The author of this article served under Mr. Baruch with the 1912 National Democratic Committee as confidential assistant to the Hon. Mr. Henry Morgenthau, Sr., the Chairman of the Finance Committee, (the father of FDR's Secretary of Treasury). Mr. Baruch's political sagacity told him that no Democrat could be elected in 1912 under existing conditions. Mr. Baruch's problem was to find a way to elect a Democrat to succeed President Taft as president.

The appeal by the Democratic Party to farmers was free-trade. The farmers wanted to buy the things they purchased at the lowest prices. Free-trade permitted the products of cheap European labor to come into this country at very low prices. The South and West were agricultural. The appeal of free-trade won a farmer's political support for the Democratic Party. The appeal of the Republican Party was for high-tariffs. The industries and the workers in the North favored high-tariffs to protect the profits of industry and the wages of workers from cheap European labor. After the great 1893 depression, resulting from Democratic free-trade administrations, the Democratic Party was voted out of office in 1896 by a high-tariff Republican administration.

The industries and the workers prospered for 20 years under the high-tariff policy of the Republican Party. The outlook for again electing a Democrat as President appeared impossible in 1912. The industrial states with large populations had a majority of the Electoral College votes, insuring the election of a Republican President. The agricultural states in the South and West had relatively small populations with much fewer Electoral College votes. The election of President Woodrow Wilson in 1912 appeared so impossible. But Mr. Baruch's political sagacity conceived the strategy that elected President Woodrow Wilson in 1912.

Mr. Baruch believed it possible for Democrats to win enough Electoral College votes to elect President Wilson only if a third political party was organized to split the votes of Republicans between the candidate of the Republican Party and the candidate of

that third political party. That is exactly what happened in the 1912 election. It was not difficult to drag ex-President Theodore Roosevelt out of political moth-balls by selling him the idea he was the "indispensable man." The Bull Moose Party was organized with ex-President Roosevelt as their candidate to succeed President Taft. The Republican Party and the Bull Moose Party in the 1912 election divided the Republican votes. The outcome was the election of President Woodrow Wilson as the candidate of the Democratic Party with less than a majority of the popular votes. As Mr. Baruch often remarked to the author of this article, "Everything is impossible until after it has happened." Truer words were never spoken.

As the confidential assistant to the Chairman of the Finance Committee of the 1912 National Democratic Committee, the author of this article was at all times during the campaign in close touch with the Committee members, particularly with Mr. Baruch and Mr. Morgenthau, Sr. The author of this article was known to Mr. Baruch from the day this author was born until the day Mr. Baruch died. Dr. Simon Baruch, Bernard's father, was the family doctor of this author's family and more or less ushered this author into the world. Mr. Baruch courted this author's eldest sister and was a frequent visitor to our city and country homes. There were no secrets in the 1912 National Democratic Committee that were unknown to the author of this article.

One matter remained a secret from the public for many years and to this day is unknown to the public. The financial backers of President Woodrow Wilson were also, to a very large extent, the financial backers of ex-President Roosevelt. The financial backers of President Wilson were told in no uncertain terms unless they also financed ex-President Roosevelt's Bull Moose campaign, they could forget all about electing Woodrow Wilson. The author of this article recalls how members of the Committee, when formal meetings ended at our 200 Fifth Avenue headquarters, would turn to each other and jokingly ask, "How is our other candidate doing?" Little did the public who were supporting ex-President Roosevelt know the source of the funds that were making the Bull Moose campaign possible.

President Wilson was grateful to Mr. Baruch for the skill he displayed in organizing a third political party. Shortly after World War I broke out in Europe in 1914, President Wilson showed his gratitude by appointing Mr. Baruch the Chairman of the War In-

dustries Board. When World War I broke out in Europe, Mr. Baruch's estimated wealth was less than one million dollars. After the end of World War I, Mr. Baruch's wealth was then estimated to be three or four hundred million dollars. When World War I broke out in 1914, this country was experiencing a severe depression. The shares of the country's leading companies were selling at greatly depressed prices. Mr. Baruch was in a position to decide, before the orders were placed, which companies were to be awarded the highly profitable foreign war orders. The shares of those companies increased immediately and continued to increase in price by leaps and bounds. Mr. Baruch made his great fortune by investing on a large scale in the shares of those companies.

Mr. Baruch acquired the banking firm of Dillon, Read & Co., after World War I. Mr. Baruch had become such a political power, prior to World War II, that he was able to have Mr. James Forrestal, the President of Dillon Read & Co., appointed Secretary of Defense in World War II. USA Zionist "Jews" called upon Secretary of Defense Forrestal demanding that he follow their recommendations with regard to Zionist interests in Palestine. Secretary of Defense Forrestal refused to take his orders from the USA Zionist "Jews." Secretary of Defense Forrestal's death was unquestionably the result of his insistence upon his making his Middle East decisions in the best interest of the USA and not in the best interest of USA Zionist "Jews." His determination cost him Mr. Baruch's friendship, and his life.

World War I broke out in Europe in the Summer of 1914. Great Britain immediately circulated publicity throughout the world that the war in Europe would be over by Christmas of that year, a matter of about six months. Newspapers around the world blazoned big headlines, "The boys will be out of the trenches and back home by Christmas." Great Britain's allies in World War I were France and Russia. Germany's allies were Austria-Hungary and Italy. Germany introduced the world to submarine warfare. Germany's submarine warfare had won the war for Germany before the USA entered the war as Great Britain's ally. The entry of the USA into World War I on April 6, 1917 as Great Britain's ally doomed Germany to their crushing ignominious defeat.

A victorious Germany in the Autumn of 1916 offered a vanquished Great Britain a very generous peace offer. Germany offered to restore the territorial and political status of all belligerents in the war to their territorial and political status prior to the outbreak of war in 1914. Germany's unusually generous peace offer was an unexpected surprise to all the world. Germany occupied almost all western Europe. German submarines had swept the high seas of convoys transporting food and ammunition to Great Britain. Great Britain had a one-week food reserve for the nation. Great Britain faced starvation if the war continued. The French army had mutinied. France had lost 700,000 of the flower of French youth in the first year of the war in the Somme and Meuse campaigns. The French were puzzled why the war was being fought by France. German armed forces were in hot-pursuit of the retreating Russian armies. The Russian forces were retreating so rapidly the pursuing Germans had difficulty in maintaining contact with them. Great Britain's General Haig was compelled to move his troops in France from their front line trenches to the rear. They were then completely out of ammunition with which to continue the war.

In the Autumn of 1916, Great Britain had no allies who were able or willing to fight. France and Russia were out of the war to all intents and purposes. They were of little help to Great Britain. In spite of Germany's victories, Germany did not demand reparations from either Great Britain, France or Russia. Great Britain's 1916 peace offer was motivated by Germany's intention to restore all Europe to its territorial and political status prior to the outbreak of World War I in 1914. Germany was anxious to end the war on

that basis as the best guarantee for future peace in Europe in Germany's best interest.

The British War Cabinet was giving serious consideration in the Autumn of 1916 to the immediate acceptance of Germany's peace offer. Their consideration was interrupted by Mr. James Malcom's appeal to Sir Mark Sykes, an Under Secretary of the British War Cabinet. Mr. Malcom was a Persian Zionist "Jew" and was a member of a prominent and wealthy Persian family, which had represented British interests in Persia for many centuries. Mr. Malcom was the adviser to the British Government on Middle East affairs in World War I. Mr. Malcom at all times had access to the British War Cabinet in his official capacity. Mr. Malcom interceded with the British War Cabinet on behalf of the British Zionist "Jews," as liaison between the British War Cabinet and British Zionist "Jews." The British Zionist "Jews" were eager to submit their proposal to the British War Cabinet before Germany's peace offer was accepted by Great Britain. They lost no time.

The World Zionist Organization's offer was submitted to the British War Cabinet by Dr. Chaim Weizmann, a Polish Zionist "Jew," Mr. Nahum Sokolof, a Russian Zionist "Jew," and Mr. Samuel Landman, a British Zionist "Jew." They offered to exert the influence of USA Zionist "Jews" to pressure the United States into World War I as Great Britain's ally, in consideration of Great Britain's agreement to hand over Palestine to the Zionist "Jews" after the war. After brief consideration of the World Zionist Organization offer, the British War Cabinet formally accepted the offer as a commitment by the British government. The British Cabinet considered it a certainty that Germany could be defeated by Great Britain with the United States as her ally in the war. The defeat of Germany would also mean the dismemberment of the Ottoman Empire, Germany's ally, as the spoils of war, a vital factor.

USA Zionists succeeded in railroading the United States into the war against Germany as Great Britain's ally on April 6, 1917, without justification or provocation by Germany. President Wilson declared war against Germany for the sinking of the Sussex in the English Channel in 1916 with the loss of USA lives, when information to that effect reached Washington. President Wilson used the sinking of the Sussex and the loss of USA lives as his pretext for declaring war against Germany. After the USA declaration of war against Germany, the Sussex was found. The Sussex had not been sunk by the Germans nor had any USA lives been lost on it.

After the USA declaration of war against Germany, British Zionist "Jews" considered that they had performed their obligation to Great Britain under the 1916 London agreement. USA and British Zionist "Jews" thereupon exacted from Great Britain in writing their obligation to perform under the 1916 London agreement. Great Britain was not trusted by British Zionist "Jews." British Zionist "Jews" knew that in 1915 Great Britain promised the Arabs their independence after the war for coming to the defense of the Suez Canal against Great Britain's advancing enemy. The Arabs, which included Palestine, were promised their independence if they revolted against their Turkish rulers and German officers and joined Great Britain's Middle East armed forces. After having promised the Arabs their independence in 1915, Great Britain again promised Palestine to the Zionist "Jews" in 1916 for railroading the USA into the war as Great Britain's ally.

Great Britain's evidence in writing of her obligation to hand over Palestine to the

Zionist "Jews" became known as the "Balfour Declaration." The so-called "Balfour Declaration" was prepared by Zionist "Jews" in New York and London. It was an ambiguous letter prepared by Zionist "Jews" and is totally meaningless. Great Britain had no right to promise Palestine to anyone. Great Britain never owned a square foot of Palestine. Zionist "Jews" could not tell the world the truth about the so-called "Balfour Declaration," for obvious reasons.

All the nations of the world, assembled in Paris in 1919 for the Paris Peace Conference, recognized the independence of the sovereign Arab states. They included Lebanon, Syria, Jordan, Iraq, Saudi Arabia, Yemen and Palestine. Under Article XXII of the League of Nations Covenant, each of these Arab states was to select a nation of their own choice to act as temporary administrator to assist them in forming their governments. The Arab nations for many centuries had been integrated in the Ottoman Empire. These Arab states gained their independence from the Ottoman Empire after Germany's defeat. They needed assistance from more advanced friendly nations to create their independent sovereign states.

In 1920, eighty-two per cent (82%) of Palestine's population expressed their preference, to have the United States act as temporary administrator of Palestine to hold the election to form the Government of Palestine. In 1920, only 10% of Palestine's population consisted of so-called "Jews." In the event the USA became the temporary administrator of Palestine, and promptly held an election, Palestine could not have become a "Jewish State." The British Zionist "Jews" then got busy. They did not intend to allow the USA to then become temporary administrator of Palestine at any cost.

Immediately upon receipt of the information, that 82% of Palestine's population wanted the USA as Palestine's temporary administrator, under pressure from the British Zionist "Jews" in London, Great Britain flew Mr. Herbert Samuel to Palestine. Mr. Samuel was one of the leading Zionists in Great Britain and a member of the wealthy family that owned control of the Shell Oil Company. Upon his arrival in Palestine by plane Mr. Samuel pronounced himself Palestine's first High Commissioner and Great Britain's as Palestine's temporary administrator in a most high-handed style.

President Wilson was in no position to do anything. Great Britain had General Allenby's 200,000 British troops in Palestine and the USA had none. USA and British Zionist "Jews" thumbed their noses at President Wilson. They knew he could do nothing about it. USA and British Zionist "Jews" literally blackmailed Great Britain into occupying Palestine without any authority. Great Britain made no attempt to hold the election to create the Government of Palestine in the twenty-six years Great Britain occupied Palestine. Great Britain was told by USA and British Zionist "Jews" not to hold the election until Zionist "Jews" formed the majority of Palestine's population.

In the expectation of thereby creating the necessary majority of Zionist "Jews" in Palestine, Great Britain between 1920 and 1947 facilitated transplanting 600,000 eastern European Zionist "Jews" of Khazar ancestry into Palestine. Including these additional 600,000 eastern European Zionist "Jews," the total Palestine population of Zionist "Jews" was in 1947 only 30% of Palestine's total population. Great Britain in 1946, at the suggestion of USA and British Zionist "Jews," turned the Palestine situation over to the United Nations. Great Britain had occupied Palestine for twenty-seven years without holding the election to create the Government of Palestine.

The United Nations Charter limits the United Nations to making "recommendations." Under the sponsorship of USA Zionist "Jews," the United Nations General Assembly on November 29, 1947, passed a resolution "recommending" that the Christians and Moslems of Palestine convey sovereignty over 50% of Palestine to the minority of transplanted eastern European Zionist "Jews" who

owned less than 4% of Palestine. The Christian and Moslem majority owning more than 96% of Palestine rejected the United Nations "recommendation," to relinquish sovereignty over 50% of Palestine to Zionist "Jews" transplanted into Palestine from eastern Europe between 1920 and 1946.

When Christians and Moslems of Palestine continued to ignore the Nov. 29, 1947 United Nations "recommendation," Great Britain decided to withdraw the 200,000 British troops in occupation of Palestine since 1920. The last British troops left Palestine on May 14, 1948. One minute after midnight on May 14th, the minority of transplanted Zionist "Jews" proclaimed themselves the sovereign "State of Israel." Armed with \$300,000,000 of the world's most modern weapons supplied without charge by the USA, Great Britain and France, Palestine's 650,000 Zionist "Jews" drove into exile 1,350,000 disarmed and defenseless Christians and Moslems. From 1939 to 1947, Palestine's Christians and Moslems were denied the right by Great Britain to possess fire-arms under penalty of being hanged to the nearest tree and their homes dynamited before the eyes of their families, and 242 were hung just for that.

Under a 1944 Mutual Assistance treaty between the nations of the League of Arab States, the armed forces in 1948 of five Arab countries came to the assistance of the Arabs of Palestine. The United Nations Charter provided, under Regional Arrangements, for the mutual defense of member nations, by the other members of the regional mutual assistance treaty. The United Nations prevailed upon the Arab states which had come to the assistance of Palestine to discontinue fighting. The United Nations assured them Palestine would be restored to its owners.

The United Nations in each of the last eighteen years has passed a resolution calling upon the so-called "State of Israel" to permit the expelled Christian and Moslem owners to return to their homes in Palestine. The eighteen United Nations resolutions were ignored by the Zionist "Jews" in occupation of Palestine. The United Nations Charter provides that a member who does not obey resolutions of the United Nations shall be expelled. But the so-called "State of Israel" is still a member of the United Nations.

The armed uprising by the minority of transplanted Zionist "Jews" would never have been admitted to the United Nations as a member if it was not for the un-Christian, non-Christian and anti-Christian service performed for USA Zionist Jews" by Cardinal Spellman. By arrangement with Mr. Charles H. Silver, a leading Zionist "Jew," Cardinal Spellman used his prestige as a Prince of the Church to influence the South American countries to vote for the admission to the United Nations of the so-called "State of Israel." The South American countries did not as a matter of policy look with favor upon armed uprisings by minorities in any country. They could not very well refuse Cardinal Spellman's appeal to them to vote for the admission to the United Nations of the armed uprising in Palestine by the minority of Zionist "Jews." The newspapers of the world published on May 11, 1964, the "confession" of Mr. Charles H. Silver telling the entire story. If Cardinal Spellman had not acted as a Zionist stooge, the so-called "State of Israel" would not have been admitted to the United Nations, the factor since then responsible for all the trouble in Palestine and all the blood spilled there.

Without the financial, economic and political support of the USA, the so-called "State of Israel" would have been liquidated long ago. With the support of the USA, it will take a war to liquidate the so-called "State of Israel." USA Zionist "Jews" dictate USA foreign policy in the Middle East. USA Zionist "Jews" control the media for mass-communications in the USA. Candidates for political office in the USA have learned they cannot be elected without the support of the controlled media for mass-communication.

Politicians seeking election, or re-election, all submit to dictation by USA Zionist "Jews" to gain their support. There is no

candidate for office in the USA who does not know the true story about Palestine. In order to win an election they vote in Congress for whatever they are instructed to vote by the USA Zionist "Jews." This betrayal of the USA by its elected officials is about to railroad the USA into another war. The USA fought in two wars to pull their "hot chestnuts" out of the fire for USA Zionist "Jews." The USA should not allow itself to be railroaded into a third world war by USA Zionist "Jews." That is exactly what is about to now occur if our patriots remain silent.

The USSR is supporting the Arab states on the question of Palestine. The USSR already has taken possession of the Mediterranean as a result of USA support of USA Zionist "Jews" on the Palestine question. There is no questions about the USSR policy in this connection. In this instance, the USSR is on the side of justice. The USA is on the side of the Zionist "Jews" in occupation of Palestine, who stole the country from its rightful owners. The USA knows that justice is not on the side of the Zionist "Jews." USA Administrations are paralyzed with fear that if they do not support the Zionist "Jews" that USA Zionist "Jews" will not support them in USA elections.

The world condemns the USA for support of Zionist "Jews" for the political benefit it obtains in USA elections. There is not a self-respecting country in the world that would offer the USA assistance in a war with the USSR resulting from USA support of the conquest of Palestine by Zionist "Jews." The USA does not deserve the support of any country. The USA applies a policy concerning the Zionist "Jews" in Palestine that it does not apply anywhere else in the world. The USA fought two world wars to drive invaders out of the countries of their victims. In spite of that fact, the USA has spent billions of dollars to defend the "right" of the Zionist "Jews" to their possession of Palestine. The answer is simple. USA Administrations knew they were doing an injustice to the Christian and Moslem population of Palestine. That made little difference to USA politicians, whose only interest was to be elected and re-elected to office for their personal gain.

The outbreak of localized war in the Middle East will lead to a general war. The USA will then be at war with the USSR. That war must inevitably develop into an atomic war. The USA and the USSR know in advance that

a thermonuclear war means suicide for both. That will make little difference to either the USA or the USSR. But why in the name of everything sacred must humanity commit suicide because the paranoid Theodor Herzl concocted the myth about a so-called "Jewish State?" Only an insane individual would believe in the creation of a theocracy in the 20th century, regardless of its purpose. The so-called "Jewish State" was the brain-child of a demented individual. Herzl was the least qualified of all so-called "Jews" to conceive a plan to solve the problem of the Russian "Jews." Herzl states in his personal diary that his interest was in a plan to get the Russian "Jews" out of Russia. Herzl was dealing with a subject about which he knew very little, as he revealed in his "Diaries."

Herzl was right in one respect. Russian "Jews" had to find a home elsewhere in the world. Russian "Jews" refused to become Russians. They made every sacrifice to retain their Khazar nationality. The Khazar kingdom was a nation of 750,000 square miles in eastern Europe until conquered and annexed by the expanding Russian Empire. The Khazars were originally an Asian Mongoloid Turco-Finn tribal nation. They emigrated into eastern Europe in the first century. Their route from Asia to eastern Europe did not come within 1500 miles of Palestine. The Khazars existed in eastern Europe as a tribal nation with which they combined the populations of the twenty-five tribal nations who occupied the areas they conquered. The Khazars co-mingled by marriage with the twenty-five tribal nations they conquered. These twenty-five tribal nations were of nearly every race in the world. This fact accounts for the diversified appearances of eastern European so-called "Jews." Anthropologists unanimously confirm that the population of the Khazar kingdom became the most mixed nation in the history of the world.

In the 9th century the pagan Khazars were converted to the religious faith they have professed since then, known then as Torah Yahve, and in modern times called Judaism. There was not one Khazar who had an ancestor who put a foot in the Holy Land in Bible history. The claim by eastern European so-called "Jews" that they were the descendants of inhabitants of Palestine in Bible history is a fraud and a hoax. Herzl

(Continued on Page 4, Column 1)

The Jewish Encyclopedia, Vol. IV, Pages 1-5, supplies the evidence that Eastern European "Jews" (Khazars) were converted in the 9th Century to the faith they profess today and never had an ancestor who set his foot in the Holy Land in Bible history era.

concocted the hoax that the invasion of Palestine by Russian so-called "Jews" was the "repatriation" of God's "chosen people" to their "ancestral homeland." Russian "Jews" were compelled to offer the world a justification for their conquest of Palestine. The paranoid Herzl sought a reason that had a spiritual appeal to Christians. Herzl concocted his infamous "repatriation" brain-storm to brainwash the Christian world.

Those who seek to enlighten the victims of Zionism about its historic background are branded as "anti-Semites" by every media for mass-communication. The term "anti-Semitism" was coined by Zionists and forged into a weapon. The term "anti-Semitism" is the most meaningless, misused and misunderstood word. The history of that word is very interesting. Shem was one of the three sons of Noah. Japeth was the legendary ancestor of Europe's population. Ham the legendary ancestor of Africa's population and Shem the legendary ancestor of the Middle East population. The tribal nations of the Middle East spoke forty-one languages which had words with similar suffixes and similar grammatical structure but no name as a language group.

A Swiss philologist by the name of Professor Schlosser made his study in 1786 of languages by groups. There was a name in each for the Slavonic languages, the Romance languages and for other language groups. There was no name for the language group spoken by the legendary descendants of Shem. The name became Sem when the historian Flavius Josephus wrote for the Greeks and Romans. The name Shem could not be pronounced in Greek or Latin. Following the writings of Flavius Josephus, Professor Schlosser was familiar with the word Sem. Professor Schlosser coined the word Semitic to describe the languages spoken by the legendary descendants of Sem. In his book on that subject, Professor Schlosser described the languages spoken by the Middle East nations as Semitic languages. The word Semitic applied to languages. There never was a Semitic nation, a Semitic race or a Semitic religion prior to that time. Professor Schlosser coined the word. It was unknown until Professor Schlosser introduced the word in his writings.

Prior to the introduction of the word anti-Semite to indicate a person opposed to so-called "Jews," the word for that in the English language was Judeaphobe. For not an unknown reason, in the 1880's, a German "Jew" named William Marr coined the word anti-Semitism. The word anti-Semitism was unknown until then. For psychological reasons European "Jews" preferred the word anti-Semite to Judeaphobe, and they have made it popular by discontinuing the use of Judeaphobe. Zionist "Jews" since the 1880's have made anti-Semitism a smear word with the power of destroying anyone smeared as "anti-Semite." As Jesus Christ came into this world among the so-called Semitic peoples in the Middle East, the word anti-Semitism has taken on the connotation of anti-Jesus Christ. Whatever the reason, to be smeared "anti-Semite," "anti-Semitic," or "anti-Semitism" is virtually the kiss of death in the modern world, as many have learned.

How strange it is that Zionist "Jews" have

forged the words anti-Semitism, anti-Semite and anti-Semitic into lethal weapons, yet Christians have never taken the trouble to investigate the origin of the words. Zionist "Jews" have made the words so acceptable that priests, clergymen and university professors use the words without any idea of their origin or real meaning. The Pope has been known to use the words. Zionist "Jews" must get a big laugh every time they hear the word spoken or see it in print. They then realize the power of their control of the media for mass-communication. It is surprising that none of the Christian big-brains have wondered what can anti-Semitism really be if there is no such thing as Semitism? There is today nothing in this world known as Semitism. Then how can there be anti-Semitism? Deprived of the use of anti-Semitism as a smear-word, Zionist "Jews" would be deprived of the greatest weapon they have with which to suppress the truth.

By their control of the media for mass-communication, Zionist "Jews" have actually convinced Christians that between 1933 and 1945 Germany murdered six million of their co-religionists. To learn the truth, The New York Times in 1947 conducted a world-wide census at their own expense to ascertain the number of so-called "Jews" remaining in the world after the alleged "murder" of six million by the Germans. The World Almanac figures supplied to them by the American Jewish Committee and the Synagogue Council of America, the official sources for that information, stated that there were roughly 16,500,000 so-called "Jews" in the world in 1933, when Hitler came into power. On February 22, 1947, The New York Times published that in 1947 there were more than 18,750,000 so-called "Jews" in the world. According to The New York Times census, there were over two million more so-called "Jews" in the world in 1947 than the 16,500,000 in 1933. Deducting 6,000,000 from 16,500,000 does not make 18,750,000 by anybody's arithmetic. That should be obvious.

USA Zionist "Jews" speak and write nothing at all about their 1933 declaration of their "holy war" against the Germans. That declaration of war occupied four full-length columns of The New York Times of August 7, 1933. It will shed much light on who planned, promoted and provoked World War II. In their declaration of war, the Zionist "Jews" declared a world-wide boycott of German goods and services, and called upon their Christian friends around the world to join their boycott. That declaration of a "holy war" against Germany insured that their world-wide boycott would prove effective, because Germany's existence depended upon her exports. Mr. Samuel Untermyer was the head of the United States delegation to the Amsterdam conference of so-called "Jews" from throughout the world. It was the same Mr. Untermyer who made arrangements with President Woodrow Wilson which facilitated USA Zionist "Jews" pressure on President Wilson to declare war against Germany. This article is not the place to divulge the details of that President Wilson scandal. May his "memory" rest in peace.

The control of the media for mass-communication by Zionist "Jews" made it impossible for USA Christians to learn the

truth about the feelings of Germans toward so-called "Jews" before and after 1916. Prior to 1916, Zionist "Jews" throughout the world regarded Kaiser Wilhelm II and Germany as their best friends. The world headquarters of the Zionist movement was in Berlin. Discontented "Jews" escaped across the border into Germany where they found security and opportunity. The Emancipation Edict of 1822 granted German "Jews" equality with other Germans, something unknown in other European countries. They could engage in any profession or in any business enterprise after 1822.

Between 1896 and 1916, Kaiser Wilhelm II tried his hardest to make the Sultan of the Ottoman Empire, Germany's ally and Kaiser Wilhelm's personal friend, relinquish sovereignty over Palestine in favor of Zionist "Jews." Kaiser Wilhelm II was not successful. The Sultan claimed that as a Muslim he would never sell anything that was not his own, and referred the Zionist "Jews" to the people who owned Palestine. In his effort to acquire Palestine for the Zionist "Jews," Kaiser Wilhelm made his trip to Palestine on his private yacht. But the Sultan could not be budged for spiritual reasons. The attitude of Kaiser Wilhelm II and all Germans towards Zionist "Jews" changed after they entered into their 1916 London agreement with the British War Cabinet to railroad the USA into the war as Great Britain's ally.

The German regard for so-called "Jews" turned to hatred when they learned their crushing defeat by Great Britain was due to the USA entry into the war as Great Britain's ally under the 1916 London agreement. It took the Germans some time to understand who was responsible for transforming their 1916 victory into their 1918 ignominious defeat. Neither Kaiser Wilhelm II nor the German nation believed that in time of war Zionist "Jews" would plan Germany's defeat in order to acquire Palestine for their so-called "Jewish State." As the crushing terms of the Versailles Treaty were applied against Germany between 1919 and 1933, the attitude of Germans against so-called "Jews" grew intense, and finally brought Hitler to power. Unless one has lived through those years in Germany, one cannot understand the feelings of the German nation. Many statesmen believe that Zionist "Jews" planned, promoted and provoked World War II to forever end by another war the anti-"Jew" sentiment in Germany the result of World War I.

USA politicians are playing with dynamite if their support of the so-called "State of Israel" leads to World War III. It is a matter they should consider well. What good will their election to office be to them if the USA suffers defeat by the USSR in a thermonuclear war. Their lush jobs will do them no good if that happens. Now is the time to knock a little sense into their heads. A thermonuclear war with the USSR may mean the end of the human race. It is an official fact that there are enough thermonuclear bombs in USA and USSR stockpiles to wipe out all humanity several times over. Furthermore, it is readily admitted by the USA and the USSR that there is no defense against a massive attack with intercontinental thermonuclear ballistic missiles. Where do we go from here? Patriots should speak up now or forever more hold their peace.
